## SUBJECT INDEX

- 
- |  |  |
|--|--|
| Alkylamine cobalt (III) complexes  | Coordination polymers  |
| Charge-transfer spectroscopy and photochemistry of alkylamine cobalt(III) complexes 225              | One-dimensional coordination polymers: Applications to material science 293  |
| Aluminum nitride   | (Cyclidene) iron(II) dioxygen carriers   |
| Coordination compounds of aluminum as precursors to aluminum nitride 193                             | Kinetics and intermediates in the autoxidation of (cyclidene)iron(II) dioxygen carriers in a variety of solvent systems 117            |
| Anation reactions  | Hexadentate EDTA-type ligands  |
| Mechanistic considerations for anation reactions in the solid state 175                              | Coordination chemistry of hexadentate EDTA-type ligands with M(III) ions 139   |
| Barium $\beta$ -diketonates  | Hexanuclear carbonyl clusters  |
| Volatile barium $\beta$ -diketonates for use as MOCVD precursors 285                                 | Organometallic chemistry of hexanuclear carbonyl clusters 261  |
| CO substitution  | Hydrogen bridge bonds  |
| Kinetic studies of CO substitution of metal carbonyls in the presence of O-atom transfer reagents 69 | Coordination compounds formed using three-center hydrogen bridge bonds: An extension of the Lewis donor-acceptor coordination bond 245 |
| Conformational change  | John C. Bailar, Jr.  |
| Conformational change induced by metal ions through coordination 167                                 | John C. Bailar, Jr. (1904-1991): Father of coordination chemistry in the United States 1   |
| Copolymers   | Ligand steric properties   |
| Coordination chemistry from monomers to copolymers 49  | Ligand steric properties 89  |

**M(III) ions**

Coordination chemistry of hexadentate EDTA-type ligands with M(III) ions 139

**Material science**

One-dimensional coordination polymers: Applications to material science 293

**Metal carbonyls**

Kinetic studies of CO substitution of metal carbonyls in the presence of O-atom transfer reagents 69

**Metal ions**

Conformational change induced by metal ions through coordination 167

**MOCVD precursors**

Volatile barium  $\beta$ -diketonates for use as MOCVD precursors 285

**Monomers**

Coordination chemistry from monomers to copolymers 49

**O-atom transfer reagents**

Kinetic studies of CO substitution of metal carbonyls in the presence of O-atom transfer reagents 69

**Oxomolybdenum(V) complexes**

High-nuclearity oxomolybdenum(V) complexes 209

**Three-center hydrogen bridge bonds**

Coordination compounds formed using three-center hydrogen bridge bonds: An extension of the Lewis donor-acceptor coordination bond 245
